

Feb. 21, 1989

Dear Joe,

Not certain you are interested in this woman, but saw it in the Sports section of our morning paper - sometimes these kinds of articles are more complete in a local paper (or in the area where the person lived), than rewritten for out of town papers.

I never met her, or saw her, but many times I knew people or corresponded with people (mostly men!) who were very interested in any muscled woman, who was in some form of athletic endeavor - and also use to see writeups about her in various magazines, etc. over the years. Never realized she was so young - guess I always assumed she was from an earlier era than I was. Or was I aware that she lived in this part of California. Interesting.

Too late to place in the package I am sending you today - reason for separate letter.

Bye now -

Dudgy.
