

May 16, 1988

Dear Joe,

Had hoped to have these copies of the articles for you before now, but have had to organize all this material, and it took much longer than I expected.

If you check over the lists that I sent you in April and the ones I am sending you today, you will see there are some of the articles that I have not sent you. However, if in going over the lists there are any you particularly desire, let me know, and I will get copies made. You will also notice that I have also included a few actual original clippings - they were extra copies (some a little tattered and torn) that we had tucked away in a box. I found quite a number of additional material, and I think this probably covers nearly everything! I suppose there are some show, etc. that we gave or participated in that were probably never written up anywhere. And there are a few of the articles published in small newspapers in various little towns that I have included only because I thought you might get a "kick" out of them (mostly 1939). The pictures are just the same, and even the writeups are similar - it is like a snow ball when that type of feature is sent out to various outlets. Some of those were done by an individual in Indiana to whom both Relna (Brewer) Mc Rae and I had sent pictures.

You may keep all this material including the original clippings, as I have copies of all of them. I do intend to send you four more copies of other newspaper writeups when we did the shows in Hawaii - the scrap I made with all the Hawaii trip material is falling apart and I will have to redo the book anyway. I foolishly used scotch tape on some of them, so it is difficult to get it loose without tearing too much.

Regarding the Album pictures - the best place I found (where they are careful with old negatives) charge \$3.95 each for 8x10 photos. Is that price ok with you? There are 16 photos in all, and double that if Steve W. wants all 16, also. Let me know, and we will take them over to be made up.

By now you have probably heard from my daughter, but I haven't talked to my brother lately - so do not know whether he has answered or not - hope so. They travel a lot, so they may be out of town.

By the way while searching thru old envelopes and folders of clippings, I ran across the name and phone number of the man in Phoenix who is suppose to have films of Muscle Beach, etc. So will pass on the information to you. Perhaps Terry Todd knows of him.

Jerry Doyle Phoenix, Arizona 602-274-3005 None of us have ever raised him at this number, and it is now several years old.

Thought you would be interested in the article on steroids that appeared one Sunday in the LA Times magazine section (Keep it), and the other clipping appeared in some magazine, but forgot to write it down.
