

He is due over today. I had a call frok him two days before Thanksgiving to say that a mutual friend--- Hal Weiss, an attorney fom Memphis--- was arriving in town, wanted to visit and we all would go out, after the visit to chomp on a steak, or ribs, or pasta fazool. I await with baited breath. I'd also have the portal baited with bear traps if Hal wasnt with the Reverend.

I had a recent letter fom Strossen and he said naught about the passing of Yarick. I wonder where Alyce is now ? If she is alive even. Also Bart Yarick. He must be in his middle tirties by now.

I have had little or nothing to do with George Redpsath or Pudgy. Now naught of them apart from what I read in the mags.

Who is McCallum ? Neber heard of him.

I dont know if it would be worth your while--- at this present stage--- to include ads in the Report. Would the income from these ads cover the added expnse of extra pages for the report ? I think not--- not at present anyway. Presently, your effort is like commercial-less TV. Very very acceptable. But would it be thus with ads in the sheets--- AT PRESENT? The proportion of ads to copy would be too high, methinks, as well as POSSIBLY raising the cost of production witout adding income to cover same. So, personally, in your position I wold thinktwice before I venture.

Nice you have a line to Alan Pal. I know of others who have tried to call him but have been given the brush off--- " Sorry. MR Paul is in conferenc

Yes, I ave heard from him re yhe Q&A sitation. He had writtne me and asked me to send in a sample copy. I did so. By November 1st I had heard nothing Over a month since I sent in the copy October 1st. Comes back my copy on November 1st--- letter written on te bottom of the one by me, I sent Paul. " Thaks, but no thanks" as what he said. He added that the publisher wanted " SOMETHING MORE CONTEMPORARY. " What's contemporary about weight training Its all as old as the hills. Nothing new. Up his. This is the very first time I have been turned down, or had copy rejected. A first time for anything @ guess.

Now I see what may be te reason. A PHD writing for him. It is possible we wil see those contributing who have had little personalexperience in wight tranin but a all of a lot in theroy.

When Dellinger losthis job ased for MD, Geider wrote him offering him a job with him. He, Dellinger turned it down. I also understand FLEX is in some bother. The gal who ran it for the Wunderkind is out and now working for Bollocks--- aka Balik.

Bollocks is now on my shit list. During the summer he phoned me and I out lined an article I wanted to do. He said write it. I did, sent it off. No answer. So the start of this month I wrote him, pointing out that our arragnement as for him to return it if he didnt like it or pay for it if hedid. I said hat in any event I now had changed my mind and didnt want him to use any more of my aff, to return what he had paid me for and I'd send him the check. NO BOODY ANSWER. I dont like being treated cheaply, lied to or used in a contemptous manner.

Take care, regards to you and tours,  
Your pissed off pal

Chas
