

experiencing the same where you are. I am wondering if we are going to get any winter, but I guess we are since there is a very early fall of leaves from the trees this year

I suppose you know Leo Murcock has been very ill. Cancer of the colon, which has spread to his liver. He is out of the hospital now and under going chemo therapy treatment.

Feel very sorry for him.

I dont drink beer any more. Cant afford it for one thing and have lost the taste for it for another. Water or milk is, rather are my beverages these days.

All the best to you are yours. Again, thanks for the letter and cutting. Appreciate both. Thanks for your letter dated September 23rd, here on the 1st of October. Please do forgive me for not replying to your letter a tad faster, but I have been doing little these days except sit in front of the boob tube and nodding off.

*Chas*

It has always been my opinion that the "fan mail" is most carefully monitored at the place where the bills are worked and who brings in the most and helps sell the most "food" supplements with the Dr. O. Also, besides what they say, the books are still shooting up with steroids. We have that price money you know. Who this Joe's present image, his "policy" was the Dr. O.

Not too much news. There is a rumor floating around that Joe has had some prostate problems and has undergone some surgical procedure. How much truth there is in this I have no idea.

I dont know if I told you about Terry Todd's protegee, Mark Henry. He is 6 feet 3 inches scales 400 pounds and has a bit fat, but muscular and proportionate and athletic, able to dunk a basket ball as if he was normal basket ball player. He is just 19 years of age.

He is being coached by Sparrow for Olympic lifting. He is in training he can already snatch 315 pounds in fairly good style. The other day he took part in a power lifting contest being only the agent. Big tree. He made a new world record of 227 pounds and set the standard by going right down, not just a little parallel. Sparrow says he will be lifting 315 in two to three years. He is a very personable young man, intelligent too, but he is dyslexic and is taking remedial classes at the U of T.

You can bet your fatboos that Joe has the energy to fight back. He has created an empire that brings him in a profit of 20 million a year and he isnt gonna let it go without a half of a struggle. It will be a bitter battle.

I entirely agree with you that the fight to stop it will be a hard battle. And, if Cory has gone, it wont be too long before hell be gone.

If you havnt already, I suggest you read MURKIN WARS, Rick Wayne's book. Revealing.

Hope all is well with you and yours. Here my grand daughter with the honor roll at school and the two boys are heading for classes. Little guys.

Weather here is unseasonably warm. Up in the close to the 90's during the day and in the low sixties at night. You dont need a blanket since the humidity is very high. Are you
