

11. I moved from 245 Hollister Ave Santa Monica, Calif. when Les and I were married in July 14, 1941. Then after the war was over, we moved back there with my mother and grandmother from 1945 until about 1946 or 47.
12. Betty Conner Zinkin lives in Fresno with her second husband, Harold Zinkin. Edna Rivers and Vera Fried-I have lost contact with them. Edna Rivers at one time was married to a circus performer and lived in Chicago - she had a child, who also worked in the circus with them - but I only heard about this from someone else. Vera Fried may be living in San Diego, but have had no contact with her from a number of years.
13. I will have to think about the Pacific Coast Wt. Championships for an anecdote - I do remember some couple talking to me afterwards, and asking me how many children I had - they had heard I had 13!! At the time we were childless.
14. I did a one arm get-up with a hundred pound kettlebell several times, but when performed in Sig.Klein's Show-I used 80 pounds, so that we wouldn't have any misses. I preferred not to state that I was lifting more than the actual weight. Sig. wanted me to call it more. By the way is he still alive?
15. Grena Trumbo - do not know her whereabouts or anything about her at present time. I think Bill Trumbo died a few years ago, but don't know dates etc.
16. I remember Val Njord, but never knew her very well.
17. My brother lives in Arcadia, California - a retired Veterinarian. He is 16 months younger than I, and does underwater photography as a hobby, and hikes and swims to keep in shape. I have no objection to giving you his address - but would like to know what you would like to ask him first - so that I can alert him.
18. I had exercised with weights off and on before I began training with the three lifts in or around 1944. Les, of course, was lifting weights back about 1936 or 1937 - in fact he gained 20 pounds during the first six months that he began his lifting - He and Bruce Conner were almost outcasts on the Gym Team because they used weights - vintage 1930s - UCLA.
19. I have all the negatives of the photo albums, but a few are getting "thin" - let me see about this - and then we can let you know how many we can get pictures off of, etc.
20. Ann Willard - know nothing about her. Joan Gass - wasn't she married to John Farbotnik? They had two children, and were divorced back in the fifties. I saw her the last time in the early sixties at Conner's Gym in WLA, and she was living in Los Angeles, but don't know where she is now.
21. Let me think about that movie WHATTA BUILT - will let you know.
22. Edith Roeder is living with her husband in Palm Bay, Florida.
