

during the year he worked after graduating from high school. He worked at the Del Mar Beach Club (where Les was a life guard on weekends). I believe he continued to exercise with weights during his first year at Washington State Univ., but not much after that, because of his studies, and working to help pay his way.

I wasn't in doubt about what you might ask him, but he isn't as forthcoming as I am!!! So wanted to first prepare him, and then get his okay to send his address, etc. My daughter is delighted to think she can contribute to part of a story - so there we go!!

7. I have located all the negatives for the Album pictures, though several are getting thin and dim - but may still be able to get prints. I do have original prints that negatives can be made from, if necessary. There were four Albums - each containing four size 8x10 glossy pics. So there are 16 pictures altogether. I haven't priced their reproduction yet, so can't give you a price - but I certainly would not charge you more than the cost of printing. Would you like copies of all, or only part? Let me know, and then I will get a price for you.

Yes, we do have all the material from our early days, and I think my daughter would probably save it, after we are gone. Although, by the time she was growing up, we were no longer active at Muscle Beach - we continued in the Gym business for many years. She has always loved to display our pictures, etc, or any magazine article that came out, to her friends - she especially enjoyed doing this while in college. She has always been close to us, and over the years we have had many "adventures" together. Though she never did any acrobatics or balancing with us, she has worked out with weights, and at present is a member of a health club in Vancouver, Wash. (where she lives and works), also jogs on their track; and is a member of a Search and Rescue Team (a fledgling member, I should say). She has done scuba diving, and been on many hikes with us over the years. (Les and I are **members** of the Sierra Club)

Joe, I have no idea how many Albums we sold over the years. And usually most people did buy all four. Les seems to believe that we probably sold albums to about 1250 individuals, or in other words perhaps 2000 to 5000 albums. Sounds like a large amount, but it was over a fairly long period of time. I don't recall anyone else selling photo albums (female, that is) at the time.

8. Edith Roeder's address:

I will try to drop her a line in a few days and tell her that I gave her address to you. I don't think she will mind, though sometimes people do. She isn't too prompt at letter writing - but a wonderful enthusiastic woman.

9. As you probably will have already noticed I have sent you material regarding the Muscle Beach Alumni Association, which is Glen Sundby's "baby". He has never been a weight lifter, but a
