Dar Joe,

Enclosed are the letter and articles I said I'd send for you to copy. The letter is so extraordinary, so UNLIKE Joe Weider that I think it important enough for someone, apart from myself, to have a copy in case my one gets either lost in the shuffle or else heaved out when I kick in. Randall Strossen also has a copy. You and he are the only two possessing one.

I also enclose news--- here it is--- of a corporate shake up at York. It seems they now have a new president of the company. He is Victor J Standish, a bloke I have never heard mentioned before.

The gen I have is that he was, prior to his appointment, president of the US LOCK AND HARDWARE COMPANY, OWNED BY YORK BARBELL. He was also elected to the board of directors of BOTH companies. From what I am told, he also continues as president of the US LOCK. He is said to have graduated from FRANKLING AND MARSHALL COLLEGE with a bachelor's degree in accounting.

Apparently he was also elected treasurer of York Barbell in July of last year, the pietz clan now being entirely out of the company. I would love to get a look at the corporate structure of the firm NOW. I also understand Terpak is continuing as general manager.

No more news re Steinborn.

In your last letter you asked me if Hack wrote his books or if someone else did. I wrote and told you I thought they were written for Hack by a Harold Kelly. If I remember correctly, you have asked me this question before.

Not too much more news.

I had a call from the Wunderkind who lavished praise on me and AGAIN said he was signing me to "A SOON. I still will not hold my breath.

best to you and yours,

PS. The article written almost TWENTY YEARS ago has undergone some creative editing. Frinstance I NEVER SAW Joe bench 330 and I never saw him bent press 225. But I am surprised at how he has left it in other stuff ALMOST untouched. He did change my INVENTION of the Multi Power Machine to where we BOTH came up with the idea. He DID change MY invention of power training to where we BOTH invented it, and he did change my telling part of the reasons why I quit. Anyway, please return when xeroxed. Thanks. Chas.
