So far as I concerned, it wuld serve no userul prpose and be, in all

Why in the hell he thought I was two timing him--- accusing me of blAeckma ing im, haing me followed by private dtectives, I will never be able to undersand. The onlyconclusun I can come to is that, in some way, hefelt threatened by me and my, obvius to him, wider knowledge of the world and of people.

He just would Not leave me alone. The more I did, themore he wanted. It is as simple as bat and, like a trade union or a greedy manufacturer of a successful lineof merchandise, he e\#ntually priced imself right out of the bloody malent.

I NRVER, so faraswas posside, took mywork home with me. I was, and still a a solid́hinly man. My home, my líe, my love vas all with my wife and kids. So my eldestdaughter can tell you lttle of my work with joe. Adyif my wife vas alive, she cold alsotell you little. True, I did at times, take work home wth me, letters to anseer, artales to be roughed out, but I tried to be with my family and spend all the time with them I coul AND $\perp$ DID.
It-is true that at times, after a "HARD DAY AT THE OFFICE " I did come bome, kick thecat, spit in the dogs food dish an beat up the wife, kids and neighbours. But when thoshstarted to become more than rareI said " $\sqrt{\text { NoUGH " and the next }}$ a aywent in and told Joe tostuff it. Myfamily was worth moe to mettan ANYIHING he had to offer.

I dont know what drove Joe, and I still dont. I have guessed, but myguess may way out of line. My odmion is that he suffered so much from bigotry and porrty when a child, that he is now taking it out on all around him。 I may befred wrong her, but it is my ipinion.
The onewho vas the obsest to himwas Vera. He has Kotwn her since she was anlequt in am, fom 9 months of age. He has always bemvery afffectionate fother and she has alwayscalled him JoE since a little child. This seemed endear her to him. Again, why I dont know. but he has always thought a Iot of her.
NOW HR RRAISES NIE! Now I dont need it, but I neded it then. If hre had been a mite morelavish with praise, I MAY'still be with hıg but I donthink so.
He has many qualities, but seems to thrust thra under whenever he feels he is "GUILIY " of a kind thougt. A remrk he once made to Andy Jackson is revealing. Whendckson upbraided him oबr his conduct and told gim he Would hav no Prpirds if he continued on his course, he replied "I DONTWANL PRINDS SO LONG AS I HAVE MY MONE Y. "But all this is stuff that can hadihy bepridtl. It consists of my priate thoughts, my opinons about him an theway Iwas treated.

What a sod sad pity.I feel he has mach in him to be a well liked man, but he is so filed with the ne ${ }^{2}$ forreognition--- see his latest edition of MUSCRAAD FINESS. Where arse kissing Rfarks are on almost *ery page that this not only sickens me but loads of oHers too. He NOW HAS HISIML responsi har fed Arcidi's success in benching 715 .

Thisdoes hrma disserve, and others who have cotributed as much as he, an injustice. He also does himself a disservice by allowijg what cadt be dsecribed as sychophants, but only as arse issers, to write such stuff.
