Dar Joe,

Thanks for yours mailed on the 14th and here on the 17th. Thanks also for the Hepburn material Very kind of you and much appreciated.

You didnt mention anything about the Goerner piece I sent you. Did it arrive safely. Sure it did. If so, please 'rox and return. It might help you with your forthcoming piece on Herman, the Giant German.

Re Webbie and the Inc'h data. I wrote to a pal in England ask him to root out the date. No answer. I called once and got no reply. I guess he was at the boozier tanking up on Guinness. But I will dial him again. Someone must have the obit somewhere. Chapman is in some sort of an effort trying to deal with Joe and is busy. He always answers my mail pronto and if he has missed you, it may be because of just forgetting or losing your mail. Grive not. I'll do what I can.

Yes, I have seen Reno's news letter and it isnt bad, but contains too many results for my liking. Over heavy in this direction, I think.

My other daughters name, address and phone number? Why you want this is a puzzle to me since she can give you naught of my lifting career, and, anyway she is living somewhere now in Dallas, having moved from Houston and I have neither her address or phone. Anyway, I would rather my family not be mentioned in the piece, apart from the fact tat I do have two daughters, the oldest adopted, the youngest my very own.

You can ask all or any questions you like. I shall do my best to anqer them honestly and those I do not want to answer I'll say so.

Re my letter of resignation to Joe. THERE WASNT NY.
